

## ***NEWS RELEASE***

*Exciting times at Buhler Furniture...*

*With the influx of entry level import product in the marketplace, Buhler Furniture continues to focus on a product selection that promotes high quality craftsmanship and an extensive offering of styles and finishes!*

*Buhler's construction techniques continue to emphasize old-world craftsmanship ideals such as mortise and tenon joinery, recessed mahogany backing, hand rubbed finishes, dust seal design, and North American wood species. These quality features are seldom seen on the imported competition and result in a beautiful lasting product!*

*Style-wise, Buhler Furniture is in the process of completing the largest new model introduction in their history! Hot new designs along with the introduction of a dozen new colors and finishes, will insure Buhler's position as Canada's premier curio and transitional cabinet manufacturer!*

*In addition to hot new models such as the "Craftsman" / Model 291, Buhler Furniture continues to offer a wide selection of curio and transitional cabinets, as well as multi-configuration entertainment units to address the changing needs of the modern consumer and new video technology.*
